

OUR LADY OF VICTORY SCHOOL

Annual Giving Campaign Funding Priorities

Tuition Assistance:

With three times the number of financial aid applications this year over last year (almost 20 percent of our school families), we have a greater need than ever for Tuition Assistance. Increasing the amount of aid we can offer to our families, helps to ensure that Catholic education can remain accessible to the children in our OLV community.

New Reading Program for PreK-2nd Grade:

The *Superkids* Reading Program by Rowland Reading Foundation is a core reading program designed for PreK through second grade.

Based on a proven pedagogy and compelling brain research, it combines rigor and fun to deliver on its promise: Every child will learn to read.

Technology:

Your gift to Technology will help fund the hiring of a part time computer instructor for the current school year. Presently the grade level teachers utilize technology to increase student learning. A dedicated computer instructor could go beyond basic computer, keyboard and internet skills, allowing students to learn design and writing applications as well as helping students connect math, science and technological principles to everyday life.

Endowment Fund:

This funding will help continue the growth of the Endowment Fund. The principal balance has increased by \$54,405 since the formation of the Endowment Council in 2006. Presently our principal balance is \$144,405.

Past endowment grants to the school have funded the start-up of a new eTapestry database system for development and fund raising, tuition assistance, new audio visual equipment, computer network upgrades, computer hardware and classroom materials.

INVEST IN THE
FUTURE
OF OUR CHILDREN
